# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

High pressure will bring dry conditions and warmer temperatures to much of northwest California today through the weekend. Coastal clouds will return this weekend as a southerly surge of stratus moves up the northwest California coast.

#### **San Francisco Weather:**

Dry conditions are now expected to prevail through the weekend and into the first part of next week. The disturbance that brought rain on Thursday has now weakened and progressed southeastward. The residual mild and moist low level air mass will remain, however. Both overnight lows and afternoon highs will generally stay slightly above seasonal norms with areas of coastal low clouds and fog extending inland night and morning hours. Then beginning around the middle of next week, another Pacific weather system will approach the district and renew rain chances.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Lingering Sierra showers and thunderstorms are possible through the weekend; otherwise, dry and warmer temperatures are expected early next week. Cooler and wetter weather will arrive at the middle of next week into next weekend.

#### **Hanford Weather:**

An approaching low pressure system will lower temperatures to near normal today. Temperatures will rise above seasonal normals by Saturday. There will be a slight chance of showers and thunderstorms over the higher Sierras through Sunday.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Weak upper level low pressure will bring below normal temperatures through the weekend. Temperatures will likely warm to near normal early next week as the upper low moves east and high pressure briefly returns. Another trough of low pressure may bring a cooling trend for the second half of next week.

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

A trough of low pressure will bring cooler weather through Sunday as it moves across Central California. Night and morning low clouds will spread into the valleys each night. There is a slight chance for thunderstorms over the mountains Saturday afternoon. The trough moves east Sunday night followed by a warming trend and shallower marine layer early next week which means the night and early morning low clouds will be relegated to right near the coastal strip.

#### **Southeast California Weather:**

A low pressure system will continue to push drier air into southeastern California resulting in mostly dry conditions on Friday.

## **SITUATION SUMMARY**

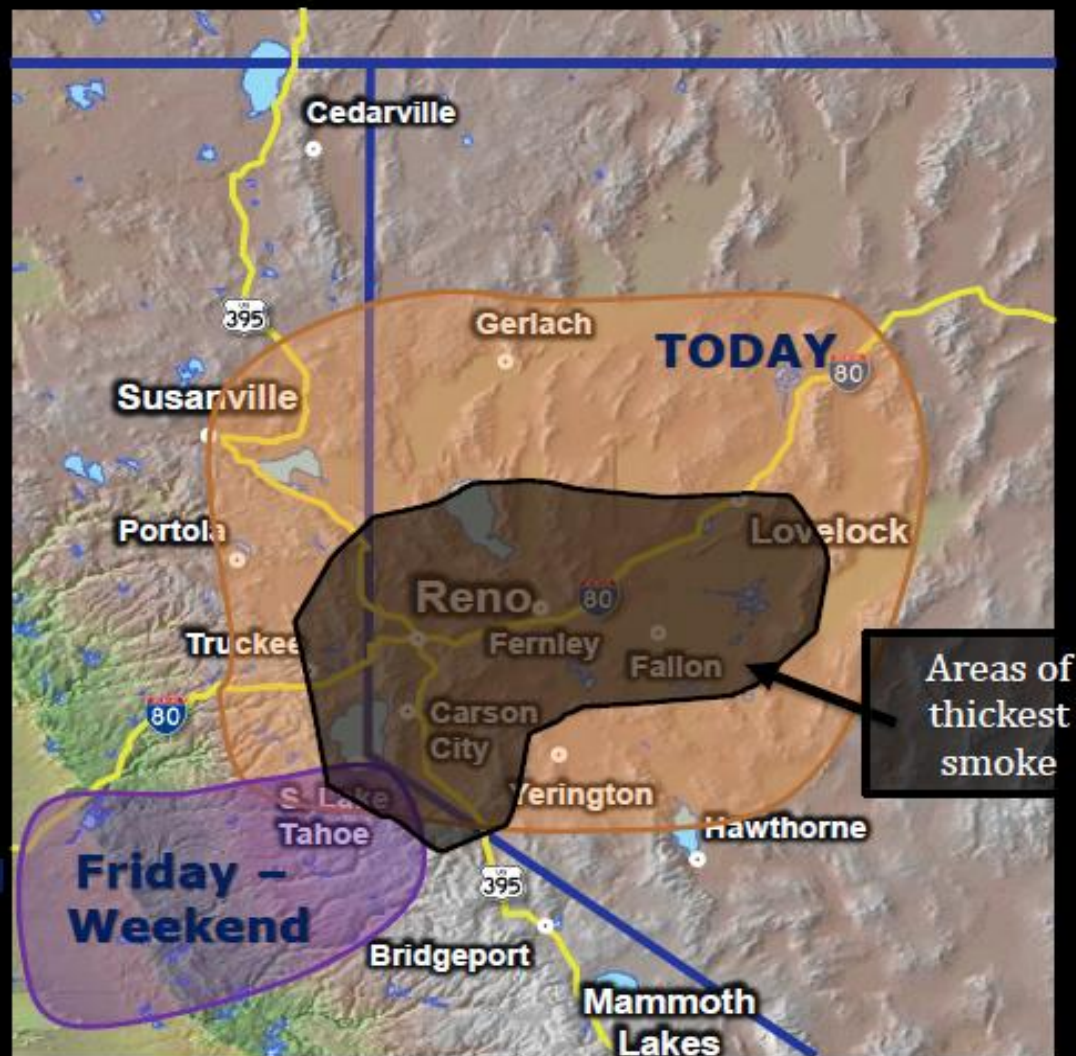

### **Potential Smoke Impacts, King Fire, El Dorado County**

- Smoke information can be obtained at: <http://californiasmokeinfo.blogspot.com/>
- The Tahoe Basin has been hit hard by smoke; Auburn, Foresthill, Colfax, Truckee, Donner, and Garden Valley, have experienced significant smoke impacts.
- There will be transport winds through the weekend, producing similar smoky conditions for Western Nevada and the Tahoe Basin.
- Winds will transition to the North and East today, 9/18/14, will push smoke to the west side of the Sierra Crest
- Per Air Resources Board interpretation of the current data provided by NWS in this morning's report, south-westerly transport winds will continue throughout today, but will shift tomorrow to easterly or north easterly. Although these are high-level (not ground-level) winds, the effect of the major wind shift could be much deteriorated air quality in the Sierra and Central Valley.
- A representative from the Iron Man race advises that they have not made any decisions on how / if the smoke will impact Iron Man. They will continue to monitor the situation. A determination on race impacts / cancellation will not be made until sometime Saturday afternoon.
- There is a risk of isolated thunderstorms today across much of the region, and along the Sierra Friday into the weekend. Thunderstorm impacts to smoke transport are uncertain.
- Low pressure may move into northern California mid to late next week. This would bring another round of strong southwesterly winds impacting the fire and transporting smoke back into the Tahoe/eastern Sierra/western Nevada region.

# Potential Smoke Paths from King Fire

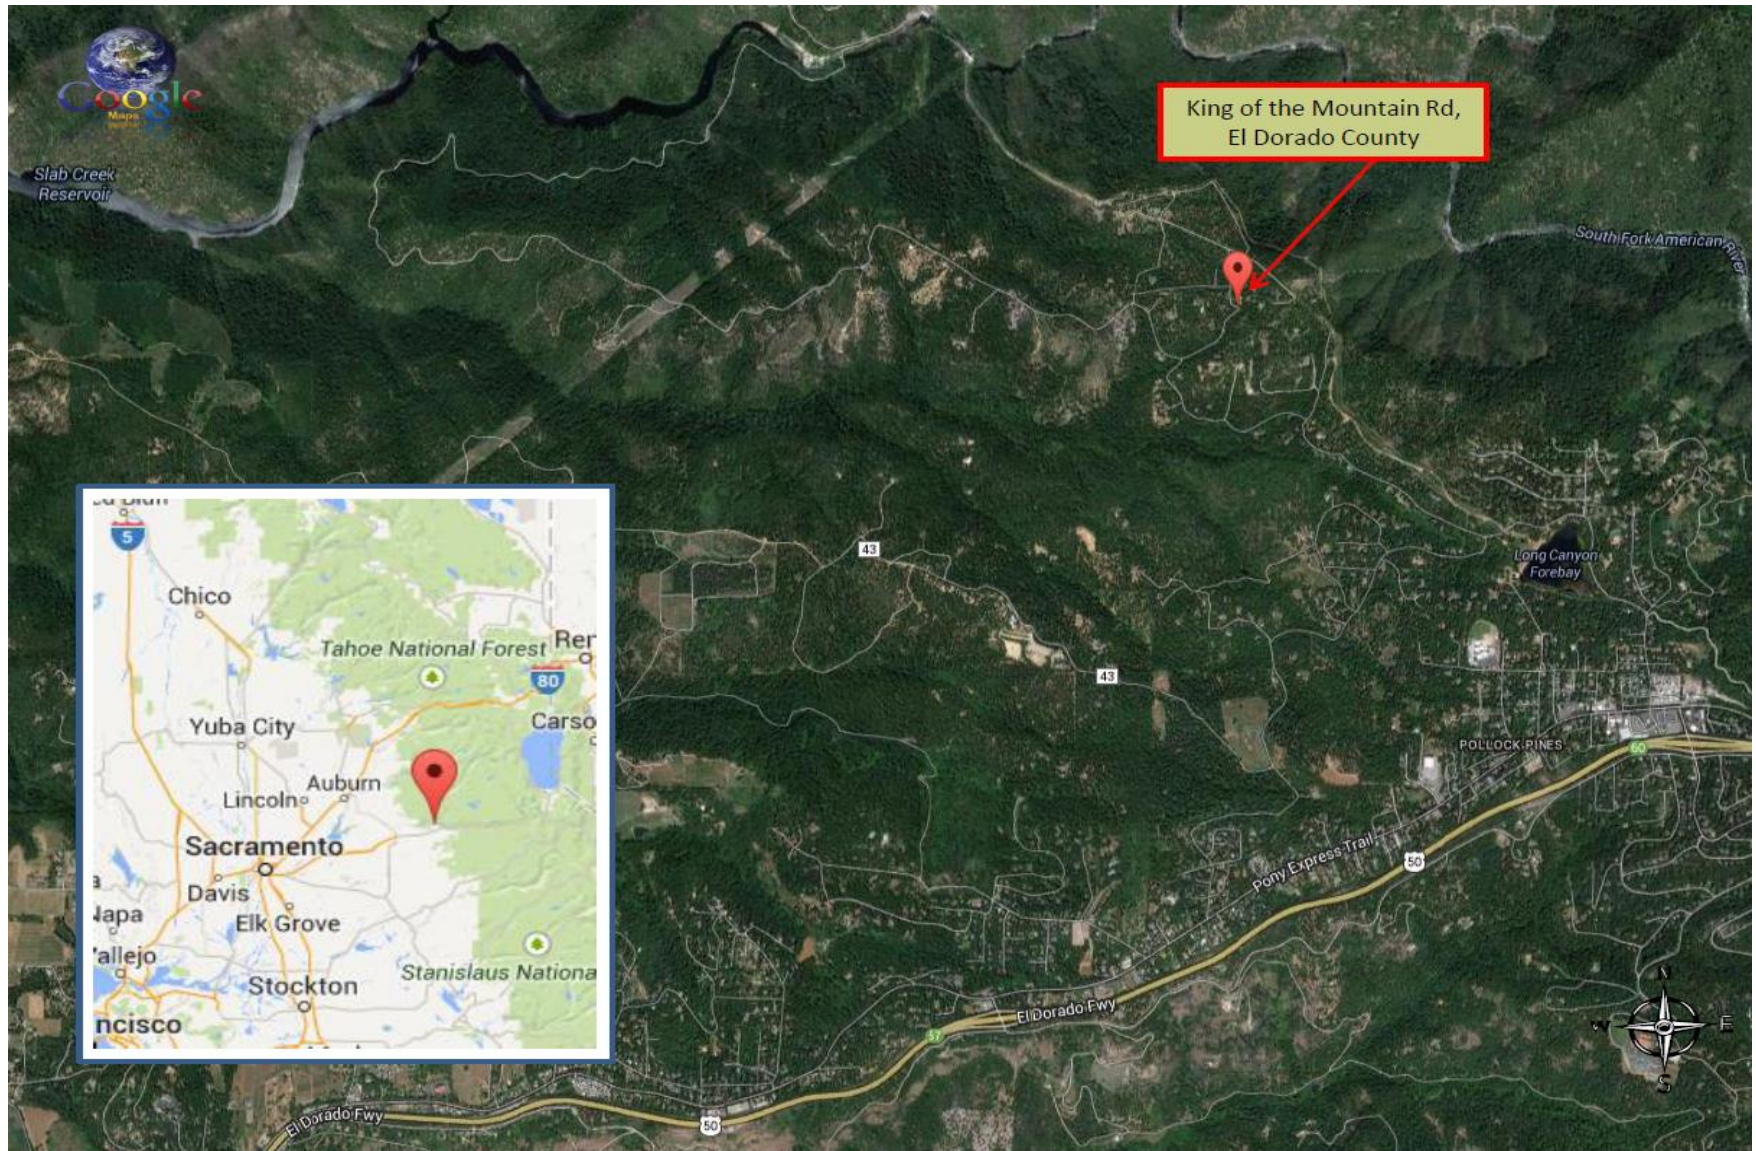

## Rough Estimates for Smoke Coverage

- Based on latest forecast wind information.
- Subtle changes in wind directions and fire activity can result in adjustments to these smoke forecasts.
- Plan on periods of reduced air quality and visibility due to smoke through tonight.
- Consult local air quality district forecasts for more specific information.

### **Evacuations**

- Weed Police Department is estimating that 800-900 evacuations are in place within city of Weed. There are no evacuations (mandatory or advisory) outside the city limits of Weed. [It is anticipated that evacuation orders will be lifted today, 09/19/14, at 1000 hours. Residents only will be allowed to enter the fire area until 1900 hours this evening. The area will again be re-opened to residents tomorrow, 09/20/14, 0700-1900 hours.](#)

### **Shelters**

- The Red Cross consolidated the shelters located at Yreka High School and Mount Shasta High School into one shelter which is located at the Mount Shasta Armory, 618 Everitt Memorial Hwy, Mount Shasta. Overnight population: [13](#).

### **Utilities/Infrastructure**

- 181 Residences are out of utility service, all are red tagged structures.
- The City of Weed Police Communications Center has been evacuated.
- Power has been restored at the PSAP and Verizon has seen the NG 9-1-1 transport to restore. The PSAP is not ready to take calls back at this time. Issues remain on the legacy service and the PSAP is not ready to resume normal business. Per the VZ NOC Engineer that spoke with the PSAP on 9/17/14, the wildfire was burning close to the PSAP. He spoke to the supervisor who advised they are still cleaning up from the fire. They are still experiencing trouble with their wireline service. They are not yet taking traffic back and do not anticipate taking traffic back until 09/17/14 or 09/18/14. The PSAP will contact NG-911 or Intrado when they want their traffic returned.
- No further updates are planned until the PSAP returns to normal operations and removes the NG9-1-1 PSAP Abandonment/Alternate Answer.

# FIRE ACTIVITY

## Boles Incident, Vegetation Fire, Siskiyou County

### **Water**

- The City of Weed lost one of their drinking water storage tanks and is drawing water from a second tank. That tank is now running low and sucking sand. Cal OES is working with the Drinking Water Program to assist with finding a solution to this issue. The Drinking Water Program (DWP) has reached out to the city. [Per DWP, the City of Weed water system has six reservoirs \(storage tanks\). The one that was damaged by the fire was one of their smallest reservoirs. There are no issues with the drinking water supply and pressure. They lifted their self-imposed boil water order in the downtown area. City is concerned with water supply to fight fires in the future.](#)

### **Health and Medical**

- CDPH reports that at approximately 1600 hours on 9/15/14, the Shasta View Nursing Center in the community of Weed, Siskiyou County evacuated all 36 patients from their facility. Three patients were transported to their homes, eight to Mercy Mt. Shasta Medical Center, seven to Fairchild Medical Center in Yreka, six to Mayers Memorial Hospital in Fall River Mills, six to Mercy Redding, five to Shepard of God Assisted Living Center in Grenada. CDPH is verifying the status of the final patient.

### **Schools**

- The high school remains intact and the elementary school received only minor damage. Both had been previously reported as destroyed. Both schools will undergo a safety inspection prior to opening.

### **Food Bank**

- Per Cal OES Inland REOC, reports indicate that the City of Weed food bank was damaged/destroyed in the fire. Foodlink will provide a trailer to store food and will also provide a bobtail truck that can be used for mobile distribution.

# **SITUATION SUMMARY**

## **Magnitude 6.0 Earthquake, American Canyon, Napa County**

### **Recovery**

- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/8/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County. IA PDA teams continue to conduct additional PDAs in Napa County.
- The City of Napa website has information regarding earthquake recovery resources.
- Cal OES Recovery PA worked closely with the Operational Areas to schedule the PA Applicants Briefing to advise state agencies, local governments, and private non-profit organizations impacted by the earthquake the types of assistance available and the programmatic guidelines. Time and location: 09/23/14 at 1000 hours at the Napa Valley Exposition in the Chardonnay Hall, 575 3rd Street, Napa, CA.
- The Napa Long Term Recovery Committee (LTRC) is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement. A follow up meeting is pending.
- State Voluntary Agency Liaison (VAL) participated in a Long Term Recovery discussion meeting on Monday, 09/15/14. Participants included several voluntary organizations, state and federal VAL, and leadership from Northern CA and Solano VOAD. A presentation on long term recovery and update on current recovery efforts was provided. Due to the absence of local faith based and other organizations that may have resources, SVOAD will reach out to expand the engagement of additional nonprofit and faith based partners. Once the organizations are identified, a follow up meeting will be held in hopes of identifying key leaders interested in forming a LTR committee.
- American Red Cross Assistance Center: Napa Marriott Hotel opened on 09/01/14 from 1000 to 1900 hours for Napa and Solano County; center will be open for two weeks.
- Local Assistance Center (LAC): County and City of Napa: LAC opened on 09/08/14 at 301 1st Street, Napa (corner of 1st Street and Silverado Trail). The LAC is open until further notice.
